HIGHLIGHT of QUALIFICATIONS

- Computer science major with a solid foundation in coding and programming fundamentals
- Demonstrate ability to collaborate effectively with teams developed through multiple academic team projects
- Proven communication skills with team members, ensuring alignment of goals and understanding
- Effective time management skills developed through balancing multiple projects with part-time employment

TECHNOLOGY SKILLS

- Programming Skills: HTML, CSS, React, Node.js, Python, Java, JavaScript, Kotlin, C, C#, SQL, APIs
- Productivity Tools: MS Office (Word, Excel, PowerPoint), Google Suite (Docs, Sheets, Gmail)
- Software: Visual Studio, Unity, Git, GitHub, Figma, Canva

EDUCATION

Bachelor of Science - Computer Science Major

Expected to graduate June 2026

MacEwan University

Course Highlights:

Introduction to Software Engineering - CMPT 395

- Specialized in software engineering concepts, including software design, development, analysis, and testing.

The Final Project - CMPT 496

- Planned, developed, and presented an independent software project under faculty supervision, applying software engineering and problem-solving principles.

RELATED EXPERIENCE

Mobile Software Application for Tutoring - Comtutor

Jan 2025 - Apr 2025

- Researched other tutoring applications to identify the types of features included and determined key project must-haves and nice-to-haves
- Designed buttons using Figma, ensuring that the design, color, and theme were consistent with other project elements
- Engineered the coding for each button, collaborating with teammates who were developing the databases to facilitate proper functioning
- Troubleshooted all issues identified through testing by brainstorming and researching possible solutions
- Collaborated with the professor as the client at all key stages of the project: identification of project goals, presentation of the proposed approach, illustration of the prototype, and demonstration of the end product

Application for Property Values In Edmonton - Edmonton Property Search

Sept 2025 - Dec 2025

- Built a data-driven search engine to visualize Edmonton property location using the ArcGIS API
- Integrated an interactive map to display property details, including value, address, and features, using data from the Edmonton Open Data Portal
- Designed and implemented intuitive UI controls to improve user experience and usability

VR Application for Advanced Chemistry Education - Virtual Vials

Jan 2026 - Apr 2026

- Explored Newman projections to ensure accurate representation of molecular structures and diagrams
- Developed an immersive VR chemistry learning application in Unity and C#, enabling interactive visualization of molecular structures
- Facilitated surveys for participants to ensure that the app effectively enhanced their understanding of the chemistry concept and delivered an engaging and immersive VR interactive experience
- Documented application features and design, including overview, mechanics, controls, and project outcomes and impact

Wildfire Information Dashboard in Alberta - FireWatch

Jan 2026 - Apr 2026

- Programmed a full-stack web application using React/Node.js and MongoDB to track and visualize wildfire locations across Alberta
- Implemented MongoDB for secure storage of user credentials, supporting login, signup, and contact functionality
- Designed and deployed frontend pages for user interaction and displaying wildfire location data

ADDITIONAL EXPERIENCE

Comfort Care Aide

Jun 2023 – Present

Northcott Care Centre, Ponoka, AB

- Collaborated with nurses and healthcare aides to support resident care
- Formulated documentation and reported observations regarding behaviors to the registered nurse, developing written and formal skills

Dietary Aide

Jun 2022 – Jun 2023

Northcott Care Centre, Ponoka, AB

- Communicated effectively with residents by describing menu options and served food according to their diet plans
- Collaborated with health care aides to ensure accurate meal service

Cashier

Jun 2018 – Sept 2021

A&W Food Services of Canada Inc.

- Managed transactions accurately in a fast-paced environment
- Developed communication and problem-solving skills through daily customer interactions

CERTIFICATES

C# Unity Game Developer 2D

Oct 2024

Online Course – via Udemy
