Overview

Summary

Comtutor is a mobile application matching students with qualified tutors efficiently. The system matches students and tutors based on subject, grade level, and tutor availability. The app has built-in features such as Schedule Viewing, Chatting, Document Uploads, and many more that are designed to be user-friendly.

Background

Given the constraints of the public education system, many students and parents seek supplemental education services to gain a competitive advantage. Comtutor offers a convenient and effective solution, connecting students with tutors effectively.

These on-demand tutoring sessions provide instructions specially curated to help students fill gaps in classroom learning or advance at their own pace through augmented learning.

While many other apps are available doing similar tasks, Comtutor differentiates itself by using an optimized matching algorithm for tutor-student matching. The quality of tutors will be managed, providing the best tutor fit for the student.

MVP

- Standalone mobile application
- Offline functionality allows use of the app without the need for internet
- Built-in calendar view for streamlined session management
- User-friendly interface for ease of use
- In app messaging system for communication

Extra Features

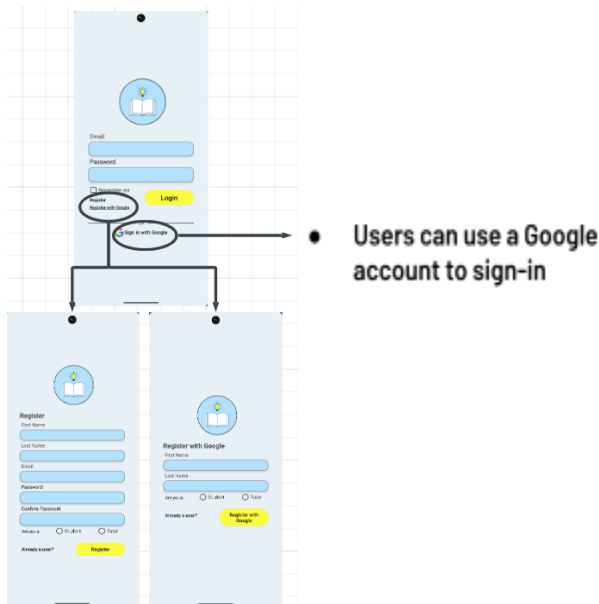

- Google sign-in and register functionality
- Remember me feature to save the user's email and password
- Tutor to upload qualification documents
- Tutor creation and validation through admin approval with documents
- Tutor to declare qualified courses and availability slots
- Built-in calendar view for easy schedule viewing
- Modify or cancel existing sessions
- Email notifications for creation and cancellation of sessions
- In app messaging
- Email notification for received messages

Student

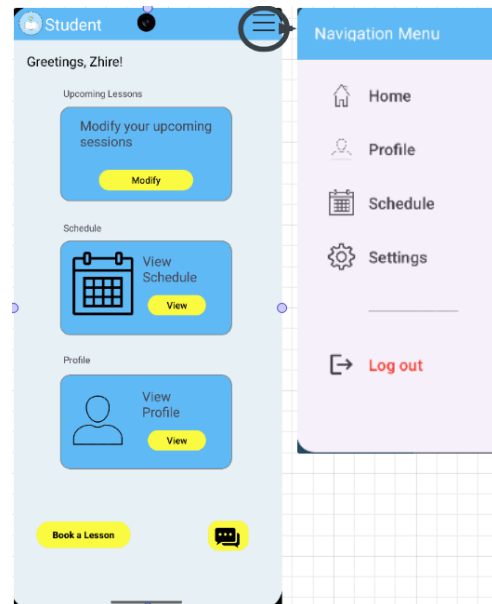

Navigation and Features

A. Login/Register

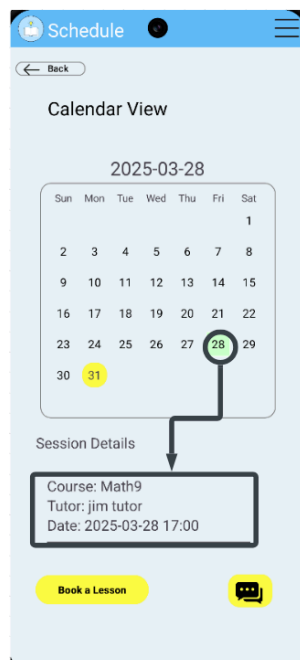

- When first booting up Comtutor, the user has the option to register an account. Alternatively, they can also set up an account using an existing Google account.
- Toggling the Remember Me box will not log out the user upon exit.
- On the Register page, a user will register with their name, email and password, as well as the type of user they are.

B. Homepage

- After login/register, the user is taken to the Homepage. Clicking on the hamburger menu brings up the Navigation Menu. The logout button is also here.

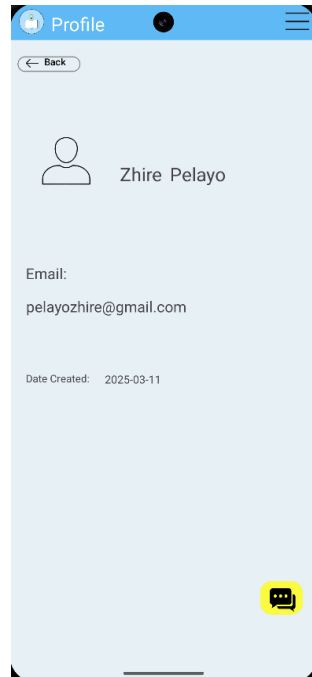

C. Schedule

- The Schedule page can be accessed from the Homepage or the Navigation Menu. Here, the user may view details, if there are any, about their scheduled sessions.

D. Profile

- The Profile page can also be accessed from the Homepage or the Navigation Menu. This page displays the user's information including their name, email, and date when the account was created.

E. Chat

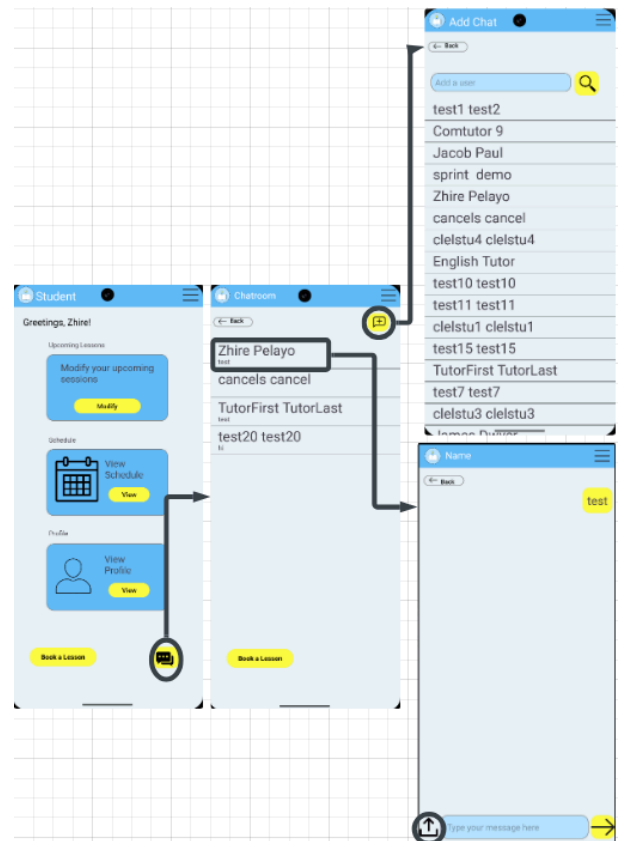

- The Chat page can be accessed from almost any screen by clicking on the chat icon on the bottom right of the screen.
- In a Chatroom, users may send messages or files by clicking on the Upload Doc button.
- To add a new chat, the user may click on the Add Chat button on the upper right of the screen, which displays all the users they can chat with.
- If a user is looking for a particular person, they may also use the search bar.
- Additionally, receiving a message sends an email notification.

You have received a message from Zhire Pelayo

F. Booking

- The Booking page consists of multiple pages. To book a lesson, from the Homepage, click on the booking button.
- This will take the user to a different page, asking them to fill out the Courses, Grade, and Session Length information.
- The Session Date page will ask the user to click on an available day, highlighted in green.
- The Tutor Match page will display the available tutors on the selected day. Clicking on the Pick button will bring up a pop-up asking the user for a preferred time slot.
- Once booked successfully, the user may view the Session Details on the Schedule page. Additionally, the user will also get an email notification about the booked session.

Your Session at 2025-03-30 05:00 has been Cancelled

Tutor

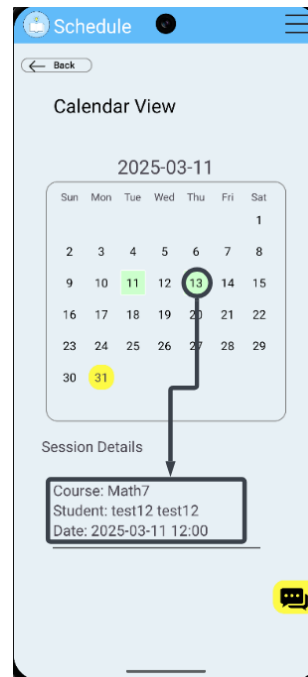

Navigation and Features

A. Homepage

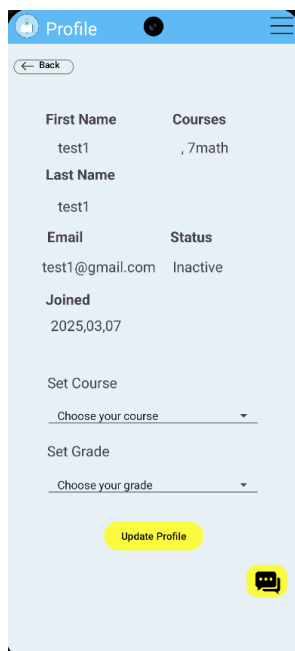

- A Tutor's Homepage, clicking on the hamburger icon brings up the Navigation Menu

B. Schedule

- A Tutor's Schedule page, accessed from the Homepage or the Navigation Menu, will display session information.

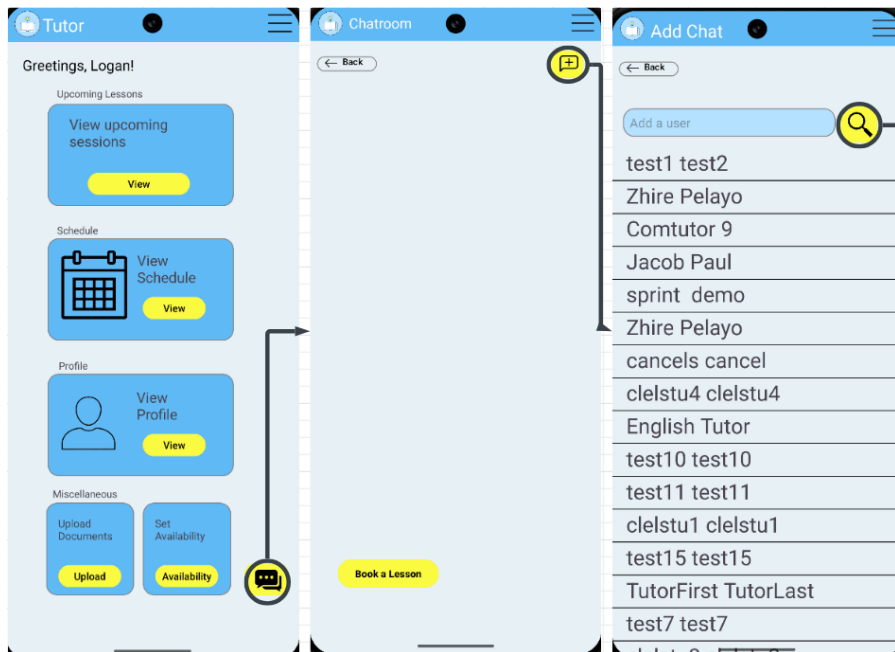

C. Profile

- The Tutor's Profile page can also be accessed from either the Homepage or the Navigation Menu. This page displays a tutor's information, including courses they are qualified to teach and their status as a tutor. Additionally, tutors may also update their courses using the dropdown menus.

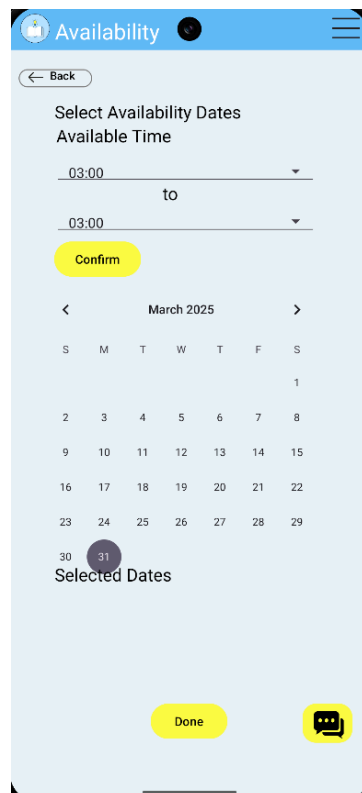

D. Chat

- Tutors may look for a specific student using the search bar

- The Chat page can be accessed from almost any screen by clicking on the chat icon on the bottom right of the screen.
- Tutors may add new chats by clicking on the add chat icon.

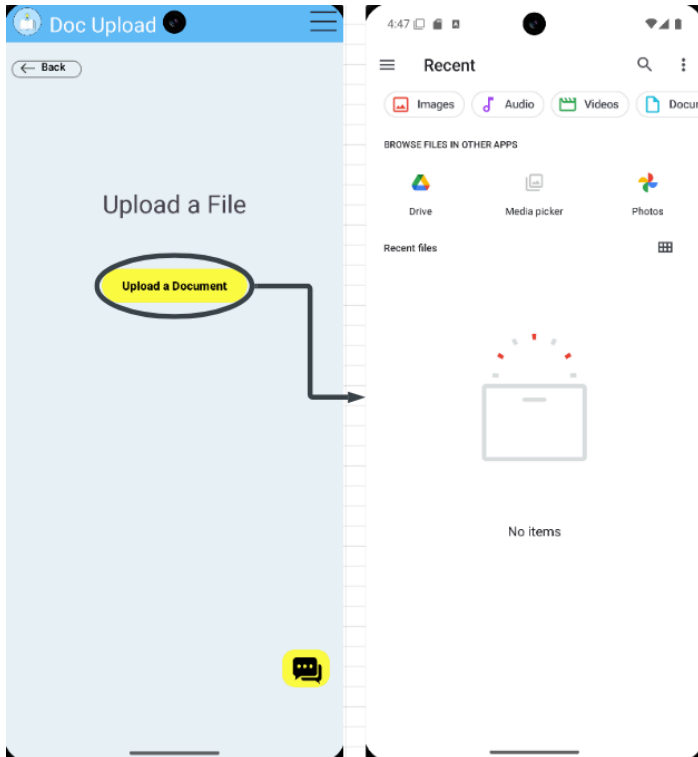

E. Availability

- On the Tutor Availability page, tutors may set their availability time using the dropdown menus and their availability dates using a calendar view.

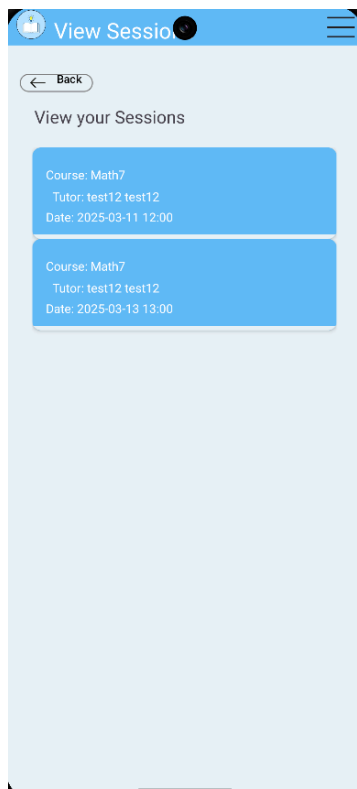

F. Upload Docs

- On the Tutor Upload Docs page, tutors may upload documents for onboarding purposes.

G. View Sessions

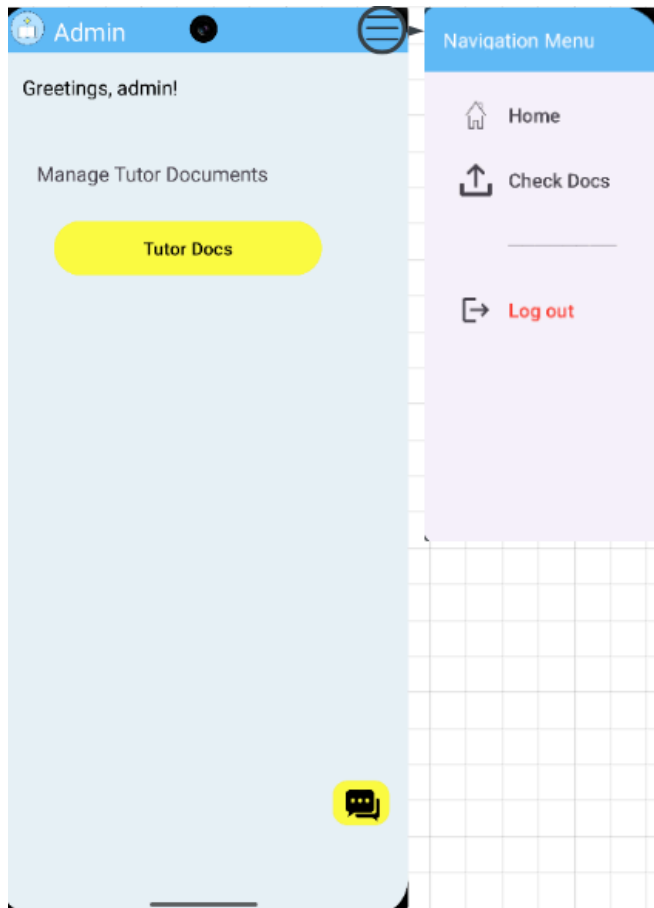

- On the View Sessions page, tutors may view scheduled session details.

Admin

Navigation and Features

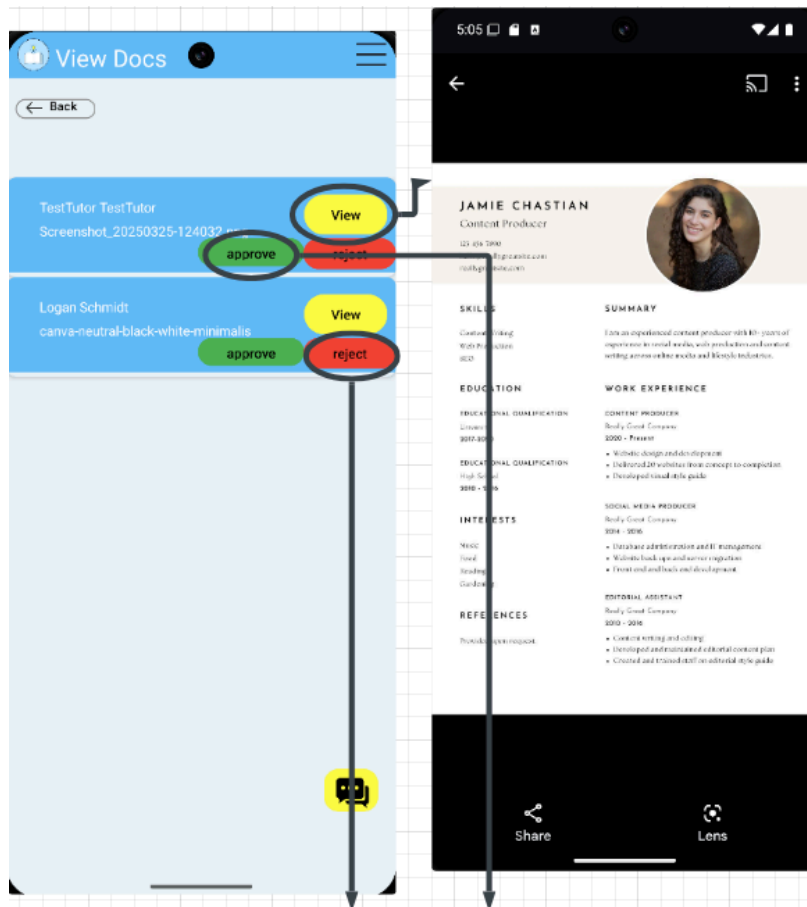

A. Homepage

- **On the Admin Homepage, the admin may access the Onboarding page via the Homepage or the Navigation Menu.**

B. Onboarding

- On the Onboarding page, admins may click on the View button to open a tutor's resume.

- Clicking on the Approve button will change a tutor's status to active.
- Clicking on the Reject button will change a tutor's status to inactive.
